conducting Autodesk Revit tutorials
from beginner to advanced level

2009 | 2005
participation in »jugend musiziert«
solo and ensemble,
laureate in the national finals

● hi, I am angelika.

architect to be — currently based in Berlin, where I work for ARCH+, the leading german magazine for architecture and urbanism.

After living and working in Graz, Rotterdam, Hong Kong & Basel I am currently writing my master thesis, besides gaining some more working experience before finishing my degree.

I am in love with coffee — espresso doppio black — travelling, architecture and urbanism, music, the underwater world, photography & life.

To discover as well as to be surprised is what drives me in life. That's why I am eager to learn something new every day. It makes me more than proud when my friends call me an inspirational, open-minded person.

If you want to know more about me or got something in mind you want to let me know, feel free to contact me.
